LinkedIn: Linkedin.com/in/manohar-vantaku **E-mail:** vantakumanu28@gmail.com
GitHub: Github.com/ManoharVantaku **Mobile:** +91-8978794154

SKILLS

- **Languages**: C/C++, Python, Java
- **Frameworks & Libraries**: HTML and CSS
- **Tools & Platforms**: Git, GitHub
- **Core CS Fundamentals**: DBMS, OS, CN, OOPs
- **Soft Skills**: Time Management, Problem-Solving, Adaptability

PROJECTS

AI agent | GitHub Feb' 25 - Mar' 25

- Developed an intelligent AI agent using Python and OpenAI APIs to automate decision-making workflows and generate accurate, context-aware responses for user queries.
- Integrated vector database memory using FAISS/Pinecone enabling the AI agent to retain conversational context, improved response relevance and task accuracy.
- Configured dynamic filtering functionality for pet type, size, age, and gender through API-based logic to deliver highly personalized and efficient search results to users.

Tech stack: HTML, CSS, JavaScript

Google Search Engine – Web Application | GitHub Sep' 23 - Nov' 23

- Engineered a clean, responsive Google-style search engine user interface using HTML5 with modern CSS techniques to ensure visual consistency, usability, and smooth interaction across devices.
- Structured the homepage layout using Flexbox and CSS Grid to closely replicate Google's real homepage behavior while maintained responsiveness on different screen sizes.
- Crafted an intuitive search bar, buttons, and navigation elements with pixel-perfect styling, hover effects, and alignment matching real-world UI standards.
  Tech stack: HTML, CSS, JavaScript

TRAINING

DSA Using Python - CSE PATHASALA | Certificate Jul' 25

- Gained hands-on experience implementing core data structures such as arrays, linked lists, stacks, queues, trees, and graphs using Python.
- Explored core DSA modules including Arrays, Linked Lists, Stacks, Queues, Searching, Sorting, and Time-Complexity Analysis, strengthened coding confidence and enhancing technical readiness for future development tasks.
- Practiced solving algorithmic problems involving searching, sorting, recursion, and dynamic programming to improve problem-solving skills.
- Worked on writing optimized, clean, and modular Python code, focused on time and space complexity analysis.
  Tech stack: Python, Data Structures and Algorithms

CERTIFICATES

- Build Generative AI Apps and Solutions with No-Code Tools - *Infosys Springboard* | **Link** Aug' 25
- Master Generative AI & Generative AI tools – Infosys Spring Board | **Link** Aug' 25
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI &LLM - Infosys Springboard | **Link** Aug' 24
- Microlearning in Machine Learning| **Link** Oct' 24
- Responsive Web Design - *Free Code Camp* | **Link** Nov' 23

ACHIEVEMENT

- Solved 80+ coding problems across **LeetCode**, CodeChef & **HackerRank**, sharpening problem-solving skills. Sep' 25

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology – Computer Science and Engineering; ***CGPA: 6.15*** Since *Aug' 23*

Sri Chaitanya Jr College Vizag, Andhra Pradesh
Intermediate; ***Percentage: 90%*** *jun' 21 – Mar' 23*

Sri Chaitanya Techno School Vizag, Andhra Pradesh
Matriculation; ***Percentage: 99.7*** *Jun' 20 – Apr' 21*
